CHARRED TIMBER

Yakisugi is the ancient Japanese craft of conserving timber through the charring of its surface with flame.

We love the effect so have come up with two ways that enable designers to achieve a Charred Timber look.

Our REAL Charred Timber planks are charred to order here in the UK, with 5 levels available.

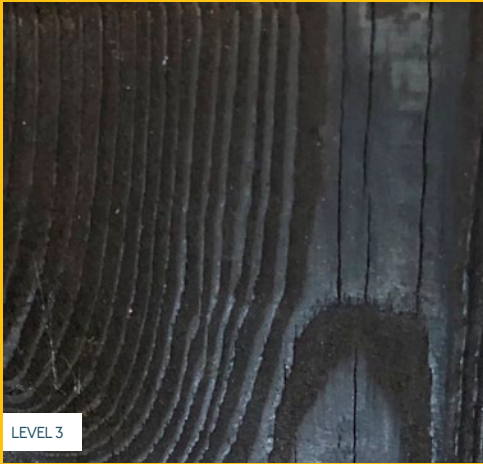

LEVEL 1

LEVEL 2

LEVEL 3

LEVEL 4

LEVEL 5

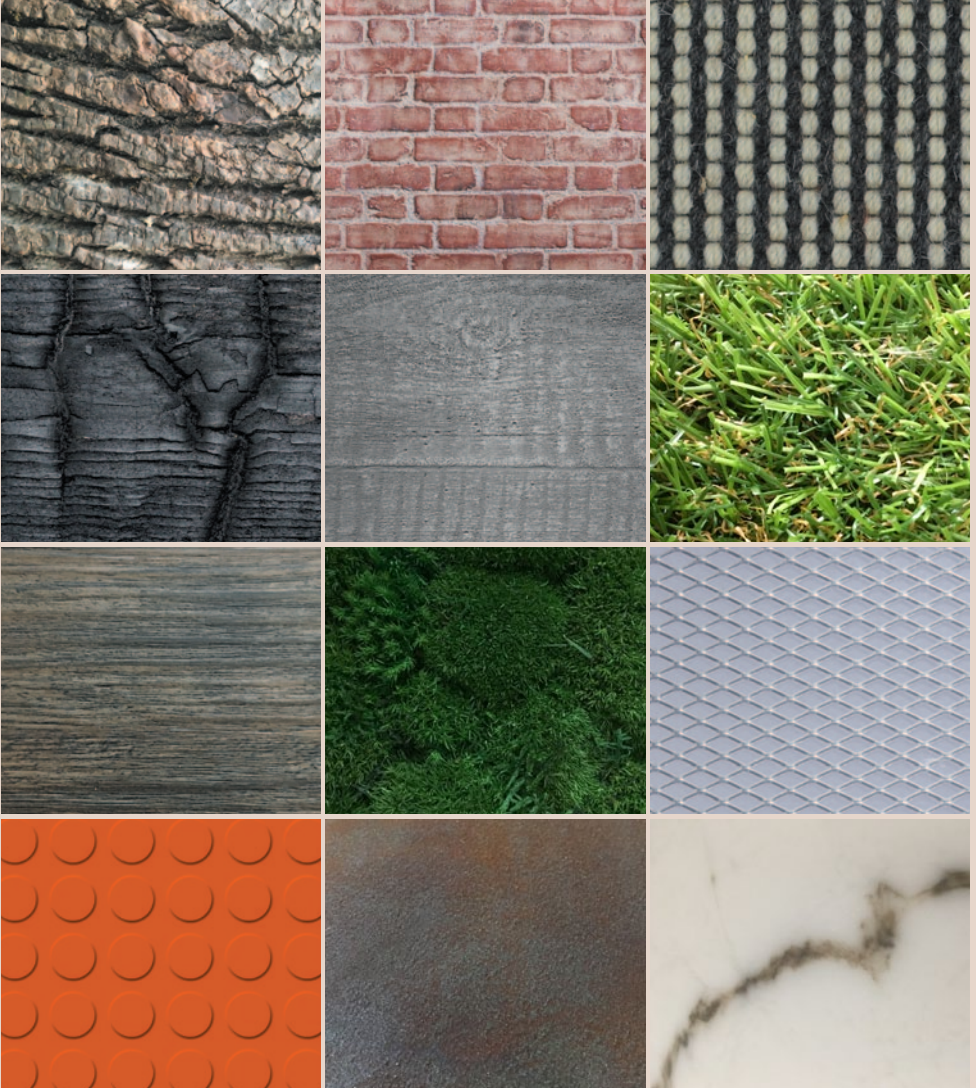

An even more practical way to achieve the Yakisugi look, is to use our Charred Timber on a roll.

Charred Timber on a Roll measures 1m x 3m.
